

Programme changes for 2021/2

This document summarises changes in programme structures (the modules that will be taught) and assessment.

| | |
|---------------------|--|
| Department / School | Mathematics |
| Programme(s) | MSc in Mathematical Sciences |

Summary of Changes

We are not expecting to make any major structural changes to our programmes in 2021/22 in terms of what is being taught.

We have decided that all exams will be online for 2021/22. We are still consulting on the appropriate length of the exam, and you will be informed of this before the academic year starts.

Some modules have had a change to their advertised assessment

- Linear Optimisation and Game Theory (MAT00087M) will be assessed by 100% exam.
- Soft Matter in Physics & Biology (MAT00070M). The assessed oral presentation will now be a written report.
