

Programme changes for 2021/2

This document summarises changes in programme structures (the modules that will be taught) and assessment.

Department / School	Psychology
Programme(s)	MSc Development, Disorders and Clinical Practice

Summary of Changes

We'll be continuing to assess students through a combination of essays, coursework, online exams, and an empirical dissertation, and specific assessment plans will be available for each module by the start of the module.

There will be no major structural modifications to the Development, Disorders and Clinical Practice programme for 2021/22. That is, no modules have been withdrawn and no modules have been altered such that credit loadings have been changed. Thus, the structure of the programme remains as [specified](#).
