

## Programme changes for 2021/2

This document summarises changes in programme structures (the modules that will be taught) and assessment.

Department / School	Health Sciences
Programme(s)	BA (Hons) Midwifery Practice Programme (MID 21)

### Summary of Changes

We'll be continuing to assess students through a combination of assessment types, such as online exams, presentations and essays. Specific assessment plans will be available for each module by the start of the module. The module leader will highlight at the start of the module the types of assessment for the module and the process for the submission etc., depending on the format, this may differ. Changes were made last year for assessments in response to the COVID-19 pandemic. These will remain the same for this academic year. Therefore there will not be any closed exams during the first year of your programme.
