

Programme changes for 2021/2

This document summarises changes in programme structures (the modules that will be taught) and assessment.

Department / School	Health Sciences
Programme(s)	BSc(Hons) Nursing –all fields of practice– September 21 cohort PDDs - Health Sciences - Student home, University of York

Summary of Changes

Over the past year 'Emergency Nursing and Midwifery Education Standards' have led to the temporary introduction of either virtual or paid placements (for junior and senior groups respectively). There are currently no plans to continue with either of these arrangements nor are they expected in the immediate future. As such, your practice placements will be allocated in traditional practice placement areas within the local, audited placement circuit.

All assessments for the forthcoming academic year will be by distance. As such, essays will be unaffected but examinations will remain open and online (rather than closed an in person). Presentations, like this year, will be recorded and uploaded, rather than in person.
